

## STEP-ON SCRUBBER DRIER

B 95 RS

Kärcher's B 95 RS step-on scrubber drier makes floor cleaning a walk in the park. The ergonomic standing position and intuitive operating controls make it simple and comfortable to use.

### Technical Specification

Step-on scrubber drier	B 95 RS
Working width (mm):	650 - 750
Fresh/Dirty water tank capacity (l):	95
Max area performance (m <sup>2</sup> /h):	3,000
Speed (km/h):	6

#### Program selector switch with ecoefficiency

- All machine functions can be simply controlled with the Kärcher Easy Switch. Ecoefficiency mode automatically reduces the power consumption of the machine resulting in prolonged runtimes.

#### Automatic detergent dosing

- Detergent can be automatically and precisely metered from the on-board detergent bottle into the clean water. With accurate adjustments between 0-3%, operators no longer have to worry about manually calculating how much detergent to use. DOSE generates cost saving and protecting the environment in one.

#### 360° overview

- Elevated standing position gives the operator a better view of the surroundings as well as a clear view of the cleaning process. This means increased safety and better cleaning results.

#### Efficient and easy to use

- Functions clearly illustrated by large graphical display. Operators need little training; Kärcher's Intelligent Key system (KIK) sets personalised machine parameters including speed, detergent and water rates, brush pressure and language - allowing the operator to focus on cleaning.

# KÄRCHER

makes a difference

## Scrubber Drier Accessories

Maximising the potential of your Kärcher machine

### Interchangeable Heads

Kärcher's interchangeable head system means one machine can be used for different cleaning tasks. Switch between roller or brush head, in different widths. Clean anything from a showroom to a workshop with the same machine.

### Microfibre Technology

Microfibre pads and rollers are available for all Kärcher scrubber driers. They offer increased cleaning performance (up to 7 times faster) and in many cases remove the need for detergents.

### Roller Brushes

Roller brushes offer excellent cleaning results by combining high friction and high contact pressure.

### Roller Pads

Kärcher's wide range of roller pads are ideal for deep cleaning and removal of very stubborn dirt from a variety of floor types.

### Cleaning Agents

Using the right cleaning agent to suit your floor type and usage will save money, improve appearance and increase the life of the floor. Kärcher cleaning agents are highly concentrated and deliver amazing results.

### Spray Bottle

A tough, pump-action spray bottle featuring a brass nozzle for easy application of detergents straight onto the surface being cleaned.

### Disc Brushes

Machines with discs are ideal for daily cleaning in front-of-house areas. They are best suited to flat, even surfaces including marble and painted concrete. For different surfaces and different degrees of soiling Kärcher has fast change disc brushes ranging from very soft to hard.

### Disc Pads

Textures ranging from soft to hard to suit different floor types and applications, from polishing to removing stubborn dirt and stains. Pads mount onto pad drive boards.

### Suction Bars

A choice of straight or curved suction bars on walk-behind and ride-on machines to suit different floor types. Straight bars are suited to very flat floors while curved bars suit uneven floors and deep-grouted floors.

### Oil-Resistant Squeegees

Available for many Kärcher machines for use in oily and greasy environments like workshops, kitchens and manufacturing areas.

### Detergent Dosing Meters

Save time and money by metering detergents accurately and without mess or waste. The right amount of detergent will clean more effectively.

### Manual Cleaning Kit

The Mop kit includes a mop clip, a mop support and a bottle holder. The Box kit provides storage space for three bottles along with cloths, scrapers, spare rubbish bags, glove or any other manual tool you can think of.

### Kärcher Fleet

Kärcher Fleet gives managers the opportunity to continually optimise their fleet. Used to monitor if the machines are being used according to plan and to inform managers in a timely manner in cases of violations of use or important machine conditions to pursue preventative management.

### Diamond Pads

For coarse cleaning and restoration. Diamond pads can remove small scratches for a clean, high-gloss like new finish.

### Super Grip and Oil Resistant Wheels

Various grades and compositions of wheels and tyres are available. Oil resistant wheels, for use in heavily contaminated areas, ensure maximum safety. To Super Grip wheels for high traction, perfectly suited for use in car parks or areas with steep gradients.

### Safety Kits

From protective roofs, rotating beacons to working lights. A large number of safety kits are available to ensure machine can be safely used in any environment.

### Spray Extraction Kits

Spray extraction kits are available on some machine that help clean in areas that are inaccessible to the machine.

### Various Battery Options

A host of battery options are available, so that you can completely tailor the machine to your cleaning requirements.

### Other machines in the range

120 Litre Walk-Behind Scrubber Drier

90 Litre Ride-On Scrubber Drier

Middle Class Hot Water Pressure Washer

100 Litre Ride-On Sweeper

Industrial Vacuum Cleaner

45 Litre Walk-Behind Sweeper

## STEP-ON SCRUBBER DRIER

B 40 RS

The B 40 RS combines the productivity of Kärcher's proven step-on design with the dimensions of a small walk behind machine. With unrivalled visibility, manoeuvrability and cleaning performance the B 40 RS brings unprecedented levels of convenience and productivity to the scrubber drier market.

### Technical Specification

Step-on scrubber drier	B 40 RS
Working width (mm):	500 - 550
Fresh/Dirty water tank capacity (l):	40
Max area performance (m <sup>2</sup> /h):	2,350
Speed (km/h):	5

#### Simple operation

- All machine functions can be easily controlled with the Kärcher Easy Switch and the ecoefficiency mode increases cleaning efficiency by saving time, energy, water and cleaning agent.

#### Simple maintenance

- The unit can be completely opened up, making it easy for day-to-day maintenance checks. All of the components, displays, filling and emptying devices are clearly arranged and easily accessible - making them easy to clean.

#### Kärcher Auto-fill

- The machine comes fitted with the Kärcher Auto-fill system. Allowing the operator to fill the machine quickly and automatically, allowing them to perform other tasks.

#### Small and manoeuvrable

- The B 40 RS has a turning circle of just 1.2m and with such a small foot print it can fit into the smallest of elevators or corridors. The construction of the units makes it possible to clean right up to the edges. Even though it is small, one battery charge can clean up to 2,500m<sup>2</sup>/h

## STEP-ON POLISHER

BDP 50/2000 RS

Cable free, powerful and fast: the highly manoeuvrable offers a large working width and a polishing speed of 2,000 rpm. Meaning that even the most stubborn marks can be easily removed.

### Technical Specification

Step-on Polisher	BDP 50/2000 RS
Working width (mm):	530
Brush Speed (rpm):	2,000
Max area performance (m <sup>2</sup> /h):	2,250
Speed (km/h):	5

#### Automatic Pressure Adjustment

- The BDP 50/2000 RS automatically adjusts the contact pressure of the pad, resulting in perfect cleaning results on all floor types or even when the pad starts to wear.

#### Integrated vacuum system

- The machine features a vacuuming function which automatically collects the dust from under the pad, which is then collected into a filter bag for easy disposal.

#### Simple operation

- All machine functions can be easily controlled with the Kärcher Easy Switch and the ecoefficiency mode automatically reduces the power consumption of the machine resulting in prolonged runtimes.

#### Very low operating noise

- With a sound level of just 62.2 dB(A) the BDP 50/2000 RS is perfect for use in noise sensitive areas, such as schools, hospitals or retirement homes.
