

A perfect shine for every floor.

The FP 303 vacuum polisher.

The FP 303 vacuum polisher – the new era of polishing.

Now polishing your floor is extremely easy. The FP 303's new functions ensure that you can achieve optimal polishing results on the widest variety of floor surfaces such as parquet, laminate, stone, PVC, cork and linoleum. The lightweight construction

makes the machine easy to use and features numerous practical benefits like the ergonomic handle for user comfort. Polishing dust is easily vacuumed and the cable is conveniently stored directly on the handle.

1 Triangular polishing head

The optimized geometry of the polishing head makes it possible to polish corners efficiently.

2 On/Off without bending over

The FP 303 is switched on and off by simply swivelling the handle after it has been unlocked with the foot pedal button. Bending over is thus a thing of the past.

3 Practical storage

A high-grade cloth bag that contains the filter bag is attached to the handle. The polishing pads can be stored in a separate compartment to save space.

4 Easy to transport

The FP 303 can be transported with minimal effort because of its smooth-running wheels.

Technical data

Technical data		FP 303
Speed of pads	rpm	1000
Working width	mm	290
Cable length	m	7
Weight	kg	7
Bag capacity	l	4
Motor power	W	600
Order no.		1.056-820.0

Equipment

3x polishing pads (universal)
1x filter bag

Special accessories

	Order no.
3x polishing pads (universal)	2.863-193.0
