# Cleaning Solutions for Over 80 Years

Since 1935 Kärcher has stood for innovation, perfection and quality without compromises. Our pursuit of creative solutions to problems bring about new developments that make work more efficient and life easier. Kärcher provides a versatile system of machines and accessories for convenience around the house and garden. For example, powerful and energy-efficient pressure washers for all conceivable applications including the Aircon pressure washer. Durable wet and dry vacuum cleaners for all-purpose applications both indoors and outdoors. Refined steam cleaners, vacuum cleaners, cordless electric brooms for impeccable cleanliness around the house. Try them and see for yourself!

*Sejak tahun 1935 Kärcher selalu mengutamakan inovasi, kesempurnaan dan kualitas tanpa kompromi. Berbagai upaya dalam mengembangkan solusi kreatif membawa perkembangan baru yang membuat pekerjaan lebih efisien dan hidup lebih mudah. Kärcher menyediakan sistem mesin dan aksesoris serba guna untuk keperluan membersihkan seputar rumah dan kebun. Misalnya, mesin pencuci bertekanan yang kuat dan efisien energi untuk semua aplikasi termasuk mesin pencuci AC. Pembersih vakum basah dan kering yang kuat untuk semua penggunaan di dalam dan di luar rumah. Pembersih dengan uap panas, penyedot debu, sapu listrik nirkabel untuk membersihkan area sekitar rumah. Coba dan buktikan sendiri!*

**Kärcher makes a difference.**

# Why Kärcher?

Since its beginning in 1935 the value-oriented family business Kärcher has developed into a worldwide brand offering its customers three strong attributes: top performance, innovation and quality. Today, Kärcher is the leading global provider of efficient, resource-saving cleaning systems, characterized by reliable, user-friendly products, strong service and an on-going commitment to the environment. Kärcher has cleaned Indonesian National Monument (Monas) in 1992 and 2014.

*Sejak dimulai di tahun 1935, Kärcher, bisnis keluarga berorientasi pada nilai-nilai telah berkembang menjadi merek internasional yang menawarkan 3 atribut penting kepada pelanggannya: kinerja terbaik, inovasi dan kualitas. Saat ini, Kärcher merupakan penyedia global terkemuka akan sistem pembersihan yang efisien, hemat sumber daya yang terpercaya, ramah lingkungan, dengan pelayanan dan komitmen yang tinggi terhadap lingkungan. Kärcher telah membersihkan Monumen Nasional (Monas) Indonesia pada tahun 1992 dan 2014.*

# Kärcher for Cleaner Indonesia

# High Pressure Cleaners

Whether it is tender care or powerful cleaning, Kärcher pressure cleaners offer the perfect solution for every outdoor cleaning task around your home. The compact units are reliable allies against smaller messes around the house and garden. Simple & convenient, the units outshine conventional cleaning that relies on a sponge, brush & bucket.

Baik perawatan yang ringan ataupun pekerjaan berat, pembersih Kärcher bertekanan tinggi memberikan hasil sempurna untuk kebersihan sekitar rumah. Unit padu andalan yang dapat diandalkan untuk membersihkan rumah & taman. Mudah dan nyaman, menggantikan pekerjaan manual yang menggunakan busa, sikat & ember.

# Wet & Dry Vacuum Cleaners

Whether dry or moist, coarse or fine dirt – it makes no difference to Kärcher multi-purpose vacuum cleaners. With lower power consumption and innovative new accessories & features, these versatile units ensure cleanliness without compromise. Kärcher provides the right solution for any need – both for intensive as well as occasional use.

Kering atau basah, butiran kasar atau kecil, tidak menjadi masalah bagi vakum pembersih multi fungsi buatan Kärcher. Dengan konsumsi listrik lebih rendah beserta perangkat aksesoris dan fitur inovatif yang baru, mesin pembersih serba guna ini membersihkan tanpa kompromi. Kärcher memberikan solusi terbaik untuk setiap kebutuhan intensif maupun sehari-hari.

# Dry Vacuum Cleaners

The ERP version stands for efficient cleaning with less power. The VC 2 & VC 3 come with HEPA 12 filter (captures 99.5% of dust and particles) and compact designs, makes them easier for storage. VC 2 is equipped with easy handling dust bag system; just throw away, no touch with dirt. VC 3 is the new advanced multi-cyclone vacuum cleaner, offers thorough cleaning without suction loss with three-level noise control system. Only 76 - 78 dB(A), no filter bag needed, big money saving.

Versi ERP dimaksudkan untuk pembersihan efektif dengan konsumsi daya yang lebih rendah. Pengisap kotoran kering ini menggunakan penyaring HEPA 12 (menyaring 99.5% debu & partikel) dan desain yang praktis, sehingga mudah disimpan. VC 2 dilengkapi dengan sistem kantong debu yang mudah digunakan, dapat langsung dibuang tanpa bersentuhan dengan kotoran. VC 3 menggunakan teknologi advanced multi-cyclone baru, menawarkan pembersihan menyeluruh tanpa kehilangan kekuatan isap dengan 3-level sistem pengatur kebisingan. Hanya 76-78 dB(A), tanpa kantong penyaring, sangat menghemat biaya.

VC 6300 is a combination of extreme suction power with outstanding comfort features. With the QuickClick system, it is so easy to switch nozzles, while EasySlider rotating ring protects objects from damage and makes it easy to vacuum without interruptions.

VC 6300 merupakan kombinasi antara kekuatan isap yang ekstrim dengan fitur kenyamanan yang luar biasa. Sistem QuickClick sangat memudahkan penggantian cerat, sedangkan EasySlider melindungi objek dari kerusakan dan memudahkan bekerja tanpa gangguan.

### Vacuum Cleaner with Water Filter

The multi-stage filter system (water filter & HEPA 12) of DS 5.800 ensures that even microscopic dirt particles as small as 0.3 µm are extracted. This is ideal for families with young children or people with allergies. The DS 5.800 relies on the natural power of water being swirled around at high speed. The dirt is piped through the swirling water, reliably filtered from the air, and bound in the water. The result: exceptionally fresh, 99.9% clean exhaust air.

Sistem penyaringan berjenjang (penyaringan air dan HEPA 12) dari DS 5.800 menjamin bahkan partikel debu sekecil 0.3 mikrometer tersaring. Alat ini ideal untuk keluarga dengan anak-anak atau mereka yang memiliki alergi. DS 5.800 mengandalkan kekuatan alami air yang dilingkarkan dengan kecepatan tinggi. Kotoran disalurkan melalui air yang berputar, tersaring dari udara dan terperangkap di air. Hasilnya: udara buangan yang sangat bersih (99.9%).

#### Special Features

- EasySlider bumper
- Remote control on the handle
- Filter change indicator
- QuickClick accessory switch system
- HEPA 12 filter - captures 99.5% of dust & particles
- Multi-stage filter system - for 99.9 % clean air
- HEPA 12 filter - captures 99.5% of dust & particles

# Steam Cleaners

Steam cleaning is suitable for any home, whether for singles, small or large families. Microscopic steam particles penetrate even the smallest pores. In this way they dissolve stubborn dirt and prevent bacterial and microbial growth. Since cleaning with steam does not involve the use of cleaning agents, no allergenic residues can form on cleaned surfaces. Kärcher steam cleaners are extremely versatile and clean without chemicals.

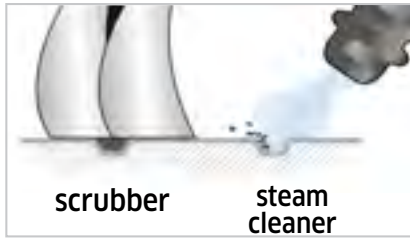

Membersihkan dengan uap panas cocok dipakai di rumah, baik keluarga kecil maupun besar. Penetrasi partikel uap panasnya mencapai hingga ke pori-pori terkecil. Dengan demikian dapat menghilangkan kotoran membandel serta mencegah berkembang biaknya bakteri dan mikroba. Karena tidak menggunakan cairan kimia, pembersih uap panas ini tidak meninggalkan residu pada permukaan. Pembersih uap panas dari Kärcher sangat serbaguna dan membersihkan tanpa menggunakan bahan kimia.

# Submersible Pump

## Compact, Robust & Powerful

The powerful and convenient Kärcher Drainage Pumps provide fast and reliable assistance when draining ponds, pools or cellars. The pump can adjust to different conditions with its adjustable pumping rhythm and switches on and off at exactly the right time.

*Pompa air Kärcher merupakan alat bantu yang kuat, cepat dan dapat dipercaya untuk menguras kolam ikan, kolam renang dan tangki. Pompa ini dapat disesuaikan dengan kondisi berbeda dengan mengubah ritme pompa dan menyala tepat pada saat ditentukan.*

# Hose Reel

## Innovative Hose Reel

Kärcher's innovative hose storage systems set new standards in terms of functionality, design and quality. Its modern hose trolleys permit users to quickly roll up and unroll the hose without having to keep it in place manually – with minimal space required.

*Inovasi Kärcher untuk sistem penyimpanan selang menetapkan standar baru pada fungsi desain dan kualitas. Troli selang modernnya memudahkan pengguna untuk membuka dan menggulung selang secara cepat dan efisien tempat.*
