

B 90 R Bp Adv. Dose Battery Operated Rider Scrubber

High flexibility and large tank volumes.

Compact size, tight turning radius, big solution tanks and a large selection of cleaning widths make our B 90 R Bp Adv. DOSE a wise decision when choosing a small or mid-size rider. Available in 22", 26" & 30" widths in conventional disk, or the increasingly popular 3 speed cylindrical brush with and integrated presweep mechanism. This machine will pass through standard doorways and boasts a turning radius of only 62", a real advantage in congested areas. Large 24 gallon solution and recovery tanks provide excellent range before emptying and refilling is required. Superb traction on slopes with up to 18 degree grades is provided by an exceptional strong drive motor system. Automatic braking is engaged upon release of the operator accelerator pedal.

Model	Order #
B 90 R Bp Adv. DOSE c/w 244 AH batteries	9.512.588.0
B 90 R Bp Adv. DOSE c/w 213 AH AGM batteries	9.512.699.0
B 90 R Bp Adv. DOSE c/w 330 AH batteries	9.512.611.0

Technical Data	
Cleaning width	22"/26"/30"
Productivity	35,500/42,000 /48,400 ft ² per hour
Solution tank capacity	24 gallons
Recovery tank capacity	24 gallons
Cleaning brushes	2
Cleaning brush speed (RPM)	Disk 180, cylindrical 625/980/1550
Brush motor	2 x 600 watts
Brush down pressure	Adjustable to 314 g/cm ²
Drive motor	600 watts
Climbing ability	18%
Squeegee width	38" (narrower or wider widths available)
Weight	768 lbs with batteries
Dimensions (l x w x h)	57" x 31" x 47"

Standard Equipment	
Squeegee assembly	4.777-413.0
Automatic charger 20 Amp cell batteries charger (with std. battery option)	9.512-414.0

Applications

- Shopping centres
- Warehouses
- Hospitals
- Schools
- Manufacturing facilities
- Transport companies

Machine Features

- Seat and backrest
- Funnel-shaped tank inlet for fresh water
- DOSE chemical metering system
- Safety seat switch
- Pedal to lift up/lower the brush head
- Fresh and recovery water tanks, each have 24 gal capacity
