

# KM 70/30 C 28" Battery-Powered Manual Sweeper

# KM 70/30 C Manual Sweeper

## Silent battery operated. Outdoor and indoor surfaces.

The battery-operated KSM 70/30 C produces a powerful sweeping action to control litter, and a vacuum action for controlling fine dust, on hard floor surfaces, even indoor commercial carpeting. Surprisingly low cost, with cleaning performance equal to larger and much more expensive vacuum sweepers. This rugged sweeper chassis is constructed of corrosion-free, impact resistant plastic, engineered to last for years. Complete with zero-maintenance battery and automatic battery charger, this is absolutely a “must see and try” machine.

Model	Order #
KM 70/30 C 28" sweeper with 12 V 26 AH battery	9.512-556.0

Technical Data	
Cleaning width	27.55"
Productivity (max. theoretical)	30,140 ft <sup>2</sup> per hour
Sweeping method	Dustpan
Hopper size	11.09 gallons
Main broom length	18.89"
Side broom diameter	13"
Weight	96.8 lb.s (with battery)
Dimension (l x w x h)	48.8" x 27.94" x 45.2"

Standard Equipment	
Standard main broom	6.906-041.0
Standard side broom	6.906-005.0
Flat pleated dust filter (95.5% efficient)	6.904-367.0
26 Ah Maintenance-free battery	9.512-554.0
Automatic 12V 6 Amp battery charger	9.512.555.0

Machine Features	
Main brush settings fixed/floating	
Patented filter shaker system	
Mobile waste container	

Optional Accessories	
Hard main broom	6.903-999.0
Soft main broom	6.903-995.0

### Applications
