Organize Your Garden
Make the garden of your dreams a reality

Home & Garden | Watering system
To ensure unhindered enjoyment of your blooming garden, Kärcher provides these high-performance pumps which have enough pressure to run several sprinklers simultaneously. Water pressure is maintained over long distances so that you can make practical installation. Operation is really simple. With Kärcher Garden pumps, you can now use water from rain water tank to save water.

A lovely garden is the most difficult to maintain. Kärcher will not disappoint a gardener! Kärcher rain system could accustom the watering level to any plants depending on their needs in water and soil moisture. Efficient watering with a maximum saving resources - thanks to special high-quality materials, economical distribution of water through combination of Kärcher healthy garden hoses and water timer. This system, allow the most variety of options to fit gardens of all shapes and sizes.
When there is a problem while watering, it’s usually because of tap and hose connections. Kärcher provides an entire line of accessories for connecting, disconnecting and repairing the watering system. The universal hose connectors are compatible with the three most common hose diameters and are available with click system.

All Kärcher universal connectors are compatible with hose diameters of ½", 5/8" and ¾"
It's hard to let go of the new spray guns and nozzles! Particularly the new Kärcher spray lances are versatile all-rounders and a real help in your garden. From watering plants on the ground to watering above your head – for example when watering hanging baskets – they make garden watering as convenient as possible. They impress above all with their successful combination of elegant design, first-class functionality and perfect ergonomics.
Sprinklers

With an extensive selection of sprinklers Kärcher always has the right solution for gardens. Depending on one's needs the sprinklers can be equipped with spikes or blades. And in order to make set-up and adjustment more convenient, we have included a splash guard in our oscillating sprinklers. It ensures that you will be able to arrange and set up the sprinklers without getting wet.

Oscillating Sprinkler OS 3.220

Variable range of spray to water different garden lengths.
Dirt-protected gearbox for long life.
Nozzle cleaning needle.
Long-lasting. Thanks to robust high-quality materials.
Attractive design fitting perfectly into the Kärcher garden range.

Max. area coverage*: 220 m²
Working pressure : 2 - 8 bar
Range of spray (2 bar) : 5 - 14 m
Range of spray (4 bar) : 6 - 17 m
Width of spray (2 bar) : 9 m
Width of spray (4 bar) : 13 m

Oscillating Sprinkler OS 5.320 S

Variable range of spray to water different garden lengths.
Water flow regulation.
Dirt-protected gearbox for long life.
Detachable ground fixation for high stability.
Splash guard for convenient positioning without getting wet.

Max. area coverage*: 320 m²
Working pressure : 2 - 8 bar
Range of spray (2 bar) : 5 - 16 m
Range of spray (4 bar) : 6 - 20 m
Width of spray (2 bar) : 12 m
Width of spray (4 bar) : 16 m

Oscillating Sprinkler OS 5.320 SV

Variable range of spray to water different garden areas.
Individually adjustable spray width (reduction of spray width by up to 60%)
Dirt-protected gearbox for long life.
Detachable ground fixing.
Silicone nozzles with cleaning needle.
Splash guard for convenient positioning without getting wet.

Max. area coverage*: 320 m²
Working pressure : 2 - 8 bar
Range of spray (2 bar) : 5 - 16 m
Range of spray (4 bar) : 6 - 20 m
Width of spray (2 bar) : 5 - 12 m
Width of spray (4 bar) : 6 - 16 m

Rotating Sprinkler RS 130/3
Multifunctional Surface Sprinkler MS 100, 6-pattern
Circular Sprinkler CS 90 Spike
What could be better than easily stowing the hose and accessories at home? The new hangers and reels provide additional space to store garden tools like garden shears, glove, etc. And with Kärcher new hose trolley there is no need to drag the hose laboriously through the entire garden as the trolley is always at hand and therefore at the watering site. The long hose is connected to the water tap, rolls out onto the ground and stays there. This keeps the hose clear of garden beds, bushes and furniture.
Karcher’s new PrimoFlex quality hoses are characterised by extreme durability, flexibility and are optimised in terms of function and handling. Karcher hoses comes in a variety of length and can stand up to 65°C.

**PrimoFlex**
- Soft PVC: easy handling, anti-algae: longer use,
- Clean water 100% phthalate-, cadmium, lead-free
- Environmental friendly and harmless to health
- Weather and UV resistant external layer: all year-round use

**PrimoFlex Plus**
- Soft PVC: easy handling, anti-algae: longer use,
- Clean water 100% phthalate-, cadmium, lead-free
- Environmental friendly and harmless to health
- Weather and UV resistant external layer: all year-round use
- Braided stitch with Kevlar® fibre from Dupont™

**PrimoFlex Premium**
- Soft PVC: easy handling, anti-algae: longer use,
- Clean water 100% phthalate-, cadmium, lead-free
- Environmental friendly and harmless to health
- Weather and UV resistant external layer: all year-round use
- Double stitching braided and knitted with Kevlar® fibre from Dupont™
- Highest bursting pressure with inner braided layer
- Highest flexibility due to knitted layer
- High anti kink resistance due to highwall-thickness, 5 layers, double stitching

**Spiral Hose set**
- Regains its original size and shape after usage
- Hose is phthalate-free, kink-resistant and resistant to UV radiation.
- Connectors with kink-protection
- Multi-functional spray gun: 4 different spray patterns for different plants with different needs
- Can be connected to in-house taps via robust brass nipple
- Always ready to use wall bracket

Available at selected DIY, Hardware and department stores.
