

# Are you a true Kärcher type?

When things get tough,  
I don't stay around

I approach every new task  
with a sense of responsibility

**The difference is you.** Because exceptional solutions require exceptional people. We are looking for committed and talented support for our Service department.

## Apprentice Service Engineer (3-year apprenticeship)

Kärcher (U.K.) Ltd are looking for an enthusiastic and reliable **Apprentice Service Engineer** to assist in the service and repair of our industrial cleaning equipment.

As our **Apprentice Service Engineer** you will complete a number of placements in different departments at Kärcher to develop your understanding about engineering and other key elements of the business. As you move around, you will gain lots of hands-on practical experience, get the chance to speak to different people and discover how the company works and the career paths available to you. As well as gaining this great practical experience in engineering, you will learn other key skills such as working safely, communication and team work.

The **Apprentice Service Engineer** will be required to spend time both at college and undertaking work in the workplace, culminating in an Advanced Modern Apprenticeship Certificate at Level 3 at the end of the scheme.

The ideal candidate will be able to demonstrate a passion for engineering and aptitude to fault find, diagnose and resolve technical/mechanical issues. You will possess a good standard of education in English, Mathematics and Science/Technology - GCSE Grade C minimum, be IT literate, have good written and verbal communications skills with the ability to build successful working relationships.

If you enjoy working as part of a team, like solving problems and have a practical flair, you will find an engineering career at Kärcher (U.K.) Ltd has a lot to offer.

Please apply for an application form to [recruitment@karcher.co.uk](mailto:recruitment@karcher.co.uk) for the attention of **Jo Wheeler, HR Advisor** stating your reasons for applying for an apprenticeship with us, or alternatively call 01295 752162 for further details.

**makes a difference**
