

makes a difference

STEAM CLEANERS.

Deep cleaning - without chemicals.

ALL-IN-ONE: THE STEAM CLEANER.

With Kärcher steam cleaners, you and your whole family can enjoy a spotlessly clean home – without the need for chemicals. With its outstanding cleaning performance, the steam kills 99.99% of all common household bacteria*, ensuring the highest standard of hygiene and a healthy living environment. With Kärcher, it's full steam ahead: whether in the kitchen, bathroom, on floors or for ironing, Kärcher steam cleaners deliver outstanding results. Discover the wide range of application possibilities!

Steam ironing

*When thoroughly cleaning with the Kärcher Steam Cleaner 99.99% of all common household bacteria will be killed on common household hard surfaces.

DEEP CLEANING WITHOUT CHEMICALS.

The secret of steam cleaning is based on the powerful combination of pressure, speed and temperature. Microscopically small steam particles force their way into even the hardest to reach crevices and tiniest recesses to thoroughly loosen dirt particles. As steam cleaning does not use any chemical cleaning agents, it prevents allergen residues from forming on the cleaned surfaces. This provides a safe environment for small children in particular, who like to put things in their mouths, and allergy sufferers can also breathe a sigh of relief.

STEAM KILLS 99.99% OF BACTERIA.*

Sometimes the best way of getting rid of bacteria is also the simplest: hot steam. The powerful ejection of steam, the high temperature of the steam, powerful nozzles and heated cleaning cloths ensure that Kärcher steam cleaners kill 99.99%* of all common household bacteria on hard surfaces, fittings, tiles, mirrors and more. This was confirmed as part of a study by the renowned Enders Laboratory in Stuttgart, and with results like these, common household bacteria do not stand a chance.

Pressure and speed

A steam cleaner produces steam at a pressure of at least 3 bar. That is the equivalent to the pressure released when a champagne cork is launched from a bottle. The result: a high level of force which powerfully removes dirt.

Temperature

The steam leaves the nozzle at a temperature of 100 °C. This heat allows the steam to loosen dirt quickly and easily.

*When thoroughly cleaning with the Kärcher Steam Cleaner 99.99% of all common household bacteria will be killed on common household hard surfaces.

BETTER THAN A MOP.**

Floor cleaning with steam

It's hard to believe how much of everyday life happens on your floor: it's where babies learn to crawl, and children and pets love to play.

That's why it's especially important to play it safe when it comes to cleanliness and hygiene, and this is where steam cleaning really comes into its own. Kärcher steam cleaners ensure maximum cleanliness and hygiene on hard surfaces like stone, tiles, PVC, laminate or varnished parquet flooring without leaving chemical residues – for a healthy living environment. The Kärcher floor nozzle is designed to ensure that the steam remains concentrated on the floor for a long time and cleans with maximum effect. Thanks to their high cleaning performance and intensive cleaning impact, Kärcher steam cleaners kill 99.99%* of common household bacteria on all hard surfaces and are therefore considerably more hygienic than a conventional mop.

► When it comes to hygiene, I've never trusted mopping 100%. With the steam cleaner, I don't have to worry. ◀

* When thoroughly cleaning with the Kärcher Steam Cleaner 99.99% of all common household bacteria will be killed on common household hard surfaces.
 ** Thorough cleaning with the Kärcher steam cleaner achieves a higher cleaning performance than manual cleaning with a mop and cleaning agent.
 Tested in accordance with international performance standards.

SPOTLESS KITCHENS - WITHOUT THE EFFORT.

Say goodbye to scrubbing in the kitchen

You don't have to be a virtuoso chef to know that even day-to-day kitchen activities leave behind traces of dirt and bacteria: from fittings, wall tiles, glass and synthetic surfaces, to extractor hoods, sinks and hobs. Kärcher steam cleaners make light work of dirt in all of these areas and ensure maximum hygiene and cleanliness - without strenuous effort. The outstanding cleaning power of steam delivers effortless and efficient results without scrubbing and scouring, leaving everything spotlessly clean in no time and making cooking twice as much fun.

► No matter how chaotic your kitchen - with the steam cleaner, everything can be effortlessly cleaned again in no time. ◀

ENJOY A CLEAN BATHROOM – WITHOUT CHEMICALS.

Spotlessly clean and hygienic bathrooms in no time

From bathing, showering, brushing teeth or hair and make-up styling, there is always something happening in the bathroom, which is why it should always be clean and hygienic – without chemicals. Kärcher steam cleaners leave bathrooms spotlessly clean: from wall tiles, glass and mirror surfaces, windows and fittings, to sinks, shower cabins, cracks and crevices. The steam ensures quick and thorough cleanliness and hygiene without the residues and odour left by chemical cleaning agents.

► When it comes to bathrooms, our motto is:
chemicals are good – but steam cleaners are better.
With a steam cleaner, your bathroom
will be spotlessly clean in no time. ◀

FASTER IRONING:

CUT IRONING TIME IN HALF WITH STEAM.

Dry and crease-free - faster

Ironing is not a household task that most of us relish. But with Kärcher's steam pressure ironing system, with quality steam iron and ironing board, you can save up to 50% ironing time and still be sure of perfect ironing results and instantly dry laundry. The high steam output causes the fibres to swell immediately, while the active steam suctioning function ensures that the steam penetrates the laundry even more effectively so that the fabric is dry and crease-free even more quickly. This means that several layers of fabric can be ironed at once. Even delicate fabrics can be ironed easily and conveniently on the air cushion, without creasing.

- › For me, ironing used to be the ultimate chore. But since getting the steam pressure ironing system, even I can achieve perfect ironing results in record time. ◀

THE CHOICE IS YOURS: THE NEW, EXTENDED RANGE OF STEAM CLEANERS.

New: SC 1 - the compact

Within easy reach and ideal for intermediate cleaning. The SC 1 may be small, but it is just as powerful as a large steam cleaner.

SC 2 - the beginner

The ideal place to start for those who are new to steam cleaning - with all of the essential functions and convenience, as well as a steam time that is four times longer than the SC 1.

SC 3 - ready-to-use

With a heat-up time of just 30 seconds, the SC 3 can be used immediately and continuously refilled. The innovative descaling system offers additional convenience.

SC 4 - the convenient

With a removable tank for easy refilling, Floor Nozzle Comfort Plus with slat function for maximum cleaning performance, and easy, contactless cloth changing for added convenience.

SC 5 - the strongest

Removes even the most stubborn dirt thanks to the innovative VapoHydro function, while the Floor Nozzle Comfort Plus offers maximum performance and convenience.
